

DERMACLEAR-LIGHT™

# Weight Loss UltraCavitation Tri-Polar Radio Frequency System

**CSA  
APPROVED**

**Weight Loss**

**UltraCavitation Tri-Polar Radio Frequency System** uses ultrasound cavitation effect, to cause tons of air bubbles around lipocyte (fat cell) membranes with its resonant frequency, the bubbles will cause high pressure, and when the high pressure has reached lipocytes (fat cell) breaking point, the lipocytes membrane will break up instantly. The broken lipocytes will then be absorbed and metabolized out of the human body by the lymphatic system. Don't like the traditional method to lose water in the body.

**Lose Weight! Lose Lipocytes!!!  
Guaranteed to lose half inch per visit!**

### Advantage

1. Digital frequency control system, energy output evenly and precisely!
2. 5.7 inch color touch screen, better customer-machine interface.
3. Non-intrusive treatment without anaesthesia or wounds, easily get rid of the tough hard fat tissue
4. 20 minutes a treatment, no downtime! Zero impact to your job or study!
5. No pain, no cut, no side-effects! No rebound! Apparent long-lasting result!

### How it Works:
